SAMPLE LABEL – FOR INFORMATIONAL PURPOSES ONLY

Provide a label with aflatoxin-containing corn stating the aflatoxin ppb range with specific species the corn may be fed in accordance with the FDA guidance levels.

Example: Aflatoxin-containing corn is tested with the result of 40 ppb. The range would be stated as 20-100 ppb with the species designated for the level of 100 ppb, 200 ppb and 300 ppb i.e. “For breeding beef cattle, breeding swine, mature poultry, finishing swine greater than 100 lbs and finishing cattle only”.

Example 2: Aflatoxin-containing corn is tested with the result of 150 ppb. The range would be stated as 100-200 ppb with the species designated for that level of feeding according to FDA guidance, i.e., “For finishing swine over 100 lbs, finishing beef cattle only.”

SAMPLE LABEL FEED CORN

This product contains between 20 and 100 ppb aflatoxin.

To be fed only to:

Breeding beef cattle, breeding swine, mature poultry, finishing swine greater than 100 lbs and finishing cattle

Warning: May not be fed to lactating dairy cattle, lactating dairy goats or immature animals. Buyers and sellers of grain must keep documented copies of labels, compliance certification agreement and analysis with bill of lading or invoices.
